PROFESSIONAL SUMMARY

Self-driven Full Stack Mobile Developer with experience engineering end-to-end cross-platform solutions utilizing Flutter mobile frameworks and PHP/Laravel backends. Proven track record of architecting scalable systems, including a comprehensive government platform for the Fujairah Government, UAE, featuring integrated admin dashboards and custom RESTful APIs with a 0% revision-request rate. Proficient across the entire product lifecycle—from UI layout and state management (BLoC, Riverpod) to secure database design and real-time backend integrations. Consistent contributor to clean, modular, and maintainable codebases within agile, fast-paced environments.

WORK EXPERIENCE

Freelance Full Stack Mobile Developer | Self-Employed

- Independently designed, built and delivered Raheel - a complete full-stack system comprising a Flutter mobile app and PHP/Laravel admin dashboard with REST API - for the Fujairah Government, UAE, achieving 0 revision requests.
- Implemented video calling, real-time chat (Socket.IO), payment gateways, push notifications, PDF exports, SMS scheduling, and Arabic/English localisation - averaging 6+ SDK categories per project.
- Built PHP/Laravel backend for DalFood inventory system: MySQL schema, REST API, SMS scheduling, stock alerts, and PDF export.
- Applied CI/CD pipelines and unit testing. Completed 10+ certifications (SATR, Packt, IBM, SkillUp) - averaging 2+ per month in 2025.

Flutter Developer | Etoo Play Information Technology 2023 - 2025

- Led development of high-performance mobile apps ensuring 99.9% crash-free sessions.
- Engineered a reusable UI widget library, optimizing development speed by 30%.
- Architected RESTful API integrations and implemented BLoC, Riverpod, and GetX for modular, testable codebases.
- Authored comprehensive technical documentation for seamless cross-functional onboarding.

Technical Support Specialist (Training) | TPRA Aug 2021

- Configured network systems, resolved 15+ daily support tickets, maintained 99%+ server uptime.

FEATURED PROJECTS

Featured project highlights (Full portfolio available at no0sa.github.io)

Raheel - Full Stack Cemetery Management System | Fujairah Government, UAE

Flutter mobile app (iOS & Android): booking, multimedia library, GPS navigation, push notifications, Arabic/English localisation. PHP/Laravel admin dashboard: burial records, cemetery statistics, request approval workflow, and paginated REST API consumed by the mobile app. Built solo with 0 revision requests.

Mobile: Flutter, Dart, REST API, Maps, Push Notifications, i18n | Backend: PHP, Laravel, MySQL, REST API

Al Kawthar - Comprehensive Islamic Companion App

20+ Islamic utilities with full offline support and Arabic/English localisation: Quran with tashkeel and Khatma tracker, Azkar, Hisn Muslim, Prayer times and Azan notifications, Qibla compass, Tasbih, Zakat calculator, Hajj guide, 99 Names, Islamic quiz, Mosque finder, Hijri calendar.

Stack: Flutter, BLoC, REST API, Offline Mode, Arabic/English

Doctor of the Future - Telemedicine Platform

Remote medical consultation platform: authentication, appointment scheduling, live video calling, real-time chat, and payment processing.

Stack: Flutter, Firebase, REST API, Video Calling, Payments

TECHNICAL SKILLS

- **Mobile:** Flutter (Expert), Dart (Expert)
- **State Mgmt:** BLoC (Advanced), Provider (Advanced), Riverpod (Advanced), GetX (Advanced)
- **Backend:** PHP (Intermediate), Laravel (Intermediate), REST API Design & Consumption, MySQL
- **Real-time:** Firebase Firestore, Socket.IO, Push Notifications
- **Databases:** Firestore (Advanced), SQLite (Advanced), Hive (Advanced), MySQL (Intermediate)
- **APIs & Tools:** RESTful APIs (Advanced), GraphQL (Intermediate), Postman (Advanced), Figma
- **DevOps:** Git (Advanced), GitHub (Advanced), GitLab (Intermediate), CI/CD, Unit Testing
- **Languages:** Dart (Expert), PHP (Intermediate), Java (Intermediate)
- **Spoken:** Arabic (Native), English (Very Good)
- **Other:** Agile/Scrum, UI/UX Design, SDK Integration, i18n, PDF Export, SMS APIs
- **Soft Skills:** Problem-Solving, Cross-Functional Collaboration, Client-Focused Mindset, Agile Methodologies

EDUCATION

BA (Hons) in Computer Science | University of Science and Technology Graduated 2022

Data Structures & Algorithms, OOP, Database Systems, Computer Networks, Software Engineering, Mobile Development, Operating Systems, Artificial Intelligence. Self-taught Flutter during final year; applied independently to graduation project.

COURSES & CERTIFICATIONS

- 2020 New Horizon Center - HTML & CSS, PHP
- 2022 Meta - Front End Dev, Back End Dev, Version Control, JavaScript, HTML & CSS in Depth
- 2023 LinkedIn Learning - Flutter Essential Training: Build for Multiple Platforms
- 2023 Sprints - Mobile Development with Flutter (40 hrs)
- 2025 IBM - Flutter & Dart, Mobile App Development, Android Development
- 2025 Packt - Flutter & Dart (4 courses), Firebase Integration
- 2025 SkillUp - Mobile App Notifications, Databases & Publishing
- 2026 SATR Platform - Dart 101-104 | Flutter 101-106
- 2026 Coursera / EDUCBA - Apply Flutter App Development From Beginner to Advanced (4 courses, 100% grade)
